- ***Superpower: three choices for America's role in the world/ Ian Bremmer.***

New York: Portfolio Penguin, 2015.
viii, 226 pages ; 24 cm.

International foreign policies are often defined by their attitudes to the US, and according to political scientist Ian Bremmer, America is facing three options: become completely independent; be a money ball that defends its interests wherever threatened; or stay internationally indispensable. As the 2016 elections approach, America must choose the road for its future - and so define a new era for international politics.

- ***The rise and fall of intelligence : an international security history / Michael Warner.***

Washington: Georgetown Univercity Press, 2014.
xviii, 406 pages : illustrations, portraits ; 23 cm.

This book is a sweeping history of the development of professional, institutionalized intelligence as well as a look at the implications of fall of the state monopoly going forward. The book is oriented toward U.S. intelligence, but the early chapters address the birth of professional intelligence in Europe at the beginning of the twentieth century.
